Controls and compliance checklist

To complete the controls assessment checklist, refer to the information provided in the scope, goals, and risk assessment report. For more details about each control, including the type and purpose, refer to the control categories document.

Then, select "yes" or "no" to answer the question: *Does Botium Toys currently have this control in place?*

Controls assessment checklist

Yes	No	Control
☐	☑	Least Privilege
☐	☑	Disaster recovery plans
☐	☑	Password policies
☐	☑	Separation of duties
☑	☐	Firewall
☐	☑	Intrusion detection system (IDS)
☐	☑	Backups
☑	☐	Antivirus software
☐	☑	Manual monitoring, maintenance, and intervention for legacy systems
☐	☑	Encryption
☐	☑	Password management system
☑	☐	Locks (offices, storefront, warehouse)
☑	☐	Closed-circuit television (CCTV) surveillance

☑ ☐ Fire detection/prevention (fire alarm, sprinkler system, etc.)

To complete the compliance checklist, refer to the information provided in the scope, goals, and risk assessment report. For more details about each compliance regulation, review the controls, frameworks, and compliance reading.

Then, select "yes" or "no" to answer the question: *Does Botium Toys currently adhere to this compliance best practice?*

Compliance checklist

Payment Card Industry Data Security Standard (PCI DSS)

Yes	No	Best practice
☐	☑	Only authorized users have access to customers' credit card information.
☐	☑	Credit card information is stored, accepted, processed, and transmitted internally, in a secure environment.
☐	☑	Implement data encryption procedures to better secure credit card transaction touchpoints and data.
☐	☑	Adopt secure password management policies.

General Data Protection Regulation (GDPR)

Yes	No	Best practice
☐	☑	E.U. customers' data is kept private/secured.
☑	☐	There is a plan in place to notify E.U. customers within 72 hours if their data is compromised/there is a breach.
☐	☑	Ensure data is properly classified and inventoried.

Yes	No	
☑	☐	Enforce privacy policies, procedures, and processes to properly document and maintain data.

System and Organizations Controls (SOC type 1, SOC type 2)

Yes	No	Best practice
☐	☑	User access policies are established.
☐	☑	Sensitive data (PII/SPII) is confidential/private.
☑	☐	Data integrity ensures the data is consistent, complete, accurate, and has been validated.
☐	☑	Data is available to individuals authorized to access it.

This section is *optional* and can be used to provide a summary of recommendations to the IT manager regarding which controls and/or compliance best practices Botium Toys needs to implement, based on the risk posed if not implemented in a timely manner.

Recommendations (optional): To improve the security posture of Botium Toys, several actions are recommended. First, access controls should be implemented based on Least Privilege to ensure employees have access only to the data necessary for their roles. This can be completed by enforcing separation of duties to minimize the risk of unauthorized access to sensitive data. Strong encryption must be utilized for all sensitive data during all stages that Botium Toys is handling PII and SPII.

An IDS should be deployed to monitor and detect breaches. On top of that, a disaster recovery plan should be developed and implemented to outline clear procedures for responding to security incidents, natural disasters, and other disruptions. This plan

should include regular backups of critical data, be securely stored, and periodically tested for integrity and availability.

Password policies must be revised to align with industry standards. A centralized password management system should be introduced to enforce this revised policy. A regular maintenance schedule for legacy systems must be established to ensure they are updated and secure, with procedures for patching vulnerabilities and completing system updates.

To enhance physical security, additional measures like access controls should be considered for sensitive areas. Regular audits need to be completed.
